

Political crises will come and go, it is our job as Americans to handle these crises properly and peacefully. We must be grateful to live in America where our founders created a Constitutional Republic providing us with the opportunity to settle our grievances with our government in a powerful, yet peaceful manner.

Unfortunately, the American education system, for over one hundred years, has deprived the American people of the knowledge of how to properly exercise their Rights and redress their grievances with our governments. This lack of knowledge has left many people feeling frustrated, defeated, and overwhelmed.

We cannot allow our frustrations or anger with our governments to force us into scenarios of violence and chaos. Our founders sacrificed so much to give us other options. There is nothing that the enemies of America want more than to see us warring with ourselves.

This is why we at the Gathering, Moravian Falls, NC:

1. Do not support violence, especially against individuals, and government officials.
2. Do not support, advocate, or conspire to overthrow the US government.
3. Encourage all active and retired military and all those who work in and for government to not violate their oaths.
4. Encourage all federal, state, and local law enforcement to follow the U.S. Constitution and the Constitution of their State.
5. Know that all Americans have God-given rights as described in the Bills of Rights in the U.S. and State Constitutions.
6. Know that as a Constitutional Republic, we have elected governments whose duty is to protect our Rights.
7. At a local level, support our Constitutional Sheriffs, State Governors, and others, as they uphold their oaths of office and protect our Rights.
